FOR HOSPITALITY

Vizit  R

POWERED BY XPLORA

01 . CONTEXTUALISATION SYSTEM

Supported by a contextualisation system **VizitAR** app detects the visitor's location (GPS) and triggers content when you want it, with no need for a human tour guide or concierge.

The visitor receives the targeted, customised information (text, audio, image, vídeo) through georeferentiation (outdoor) or beacons (indoor) or even QR Codes (indoor or outdoor).

Isn't it great to take full control of your guests tourist experience?

02 . AUDIOGUIDE IMMERSIVE AUDIO

Uncover all the great stories about your hotel and the points of interest you recommend for your guests to visit, with an engaging voice-over narrative that will complement the experience.

Offer your guests an experience tailored to their profile to their profile, thus increasing interest, experience, interaction and impact.

You can also create truly immersive sound experiences with binaural sound (3D sound).

Host your guests before they are even your guests!

03 . VIRTUAL GUIDE

With the Virtual Guide functionality, users will be able to take guided tours of the hotel with a guide / host of the company.

This way of accompanying new guests or even new staff, through a guide that accompanies the visit, increases the engagement and level of attention **while showing the hotel for holidays, professional stay or even for events.**

This guide can be live, a pre-recorded video or even an avatar.

Keep the human touch while hosting your guests.

04. VENDAS CONTEXTUALIZADAS

Promote contextualised sales of your online store , or any other product or service of the Hotel while your guests are inside your hotel.

This allows visitors to **easily see the items that you want to promote** while doing the physical or virtual visit to your hotel.

It can be products from your store, it can even be your loyalty program , the possibilities are endless.

“ Offer your guests a 360° shopping experience.

05 . VIRTUAL TOURS

With ViziAR's Virtual Tours, your guests walk through an immersive digital version of the hotel for better promotion of room bookings.

Create an innovative and truly integrated sales experience with an immersive tour of your hotel, rooms, common areas, or even nearby points of interest that can be accessed from anywhere in the world on any device (PC, Oculus VR, mobile phone).

These Virtual Tours will be created by capturing your space in 360° or by recreating it in 3D (3D Modelling or photogrammetry for a Digital Twin).

Host your guests before they are even your guests!

06 . METAVERSE HOTEL

In this "Metaverse" version of your hotel, guests can visit the hotel and interact and interact with the different spaces, with other guests and customers from different parts of the world in real time.

In this Microverse of the hotel, guests will also be able to take part in events, challenges and access totally exclusive experiences, such as a gallery with a collection of exclusive digital assets, with real-world rewards such as discounts on their next hotel stay, places to visit, etc.

Redefine Hospitality while integrate both real and virtual world!

08 . IMMERSIVE ONBOARDING

Virtualise your facilities, offices, branches or relevant spaces to introduce to new staff members.

In an immersive version of your hotel and its operational areas, new staff members will be able to have a more realistic and engaging vision of the space in which they will be working.

“ Take your new staff into a immersive journey of your facilities or even hotels worldwide.

08. ANALYTICS

VizitAR can **collect useful data** (directly or indirectly) to provide smart analytics. This information is crucial for cities, museums and stadiums to understand number of visitors, favorite spots and many other useful information.

These analytics are a powerful tool to manage and enhance VizitAR hospitality experiences.

The collection of basic info like nationality and age, or even the feedback of the experience from your visitors can **help to define marketing campaigns or experience improvements**.
